Reach creative pros at the moment they ship.

The LetsSend download screen is a calm, full-attention canvas seen by designers, editors and studios sharing their best work. One brand at a time - no pop-ups, no trackers, no clutter on top of someone's files.

Who you'll reach

Designers, editors, photographers, studios and the agencies that hire them - people who buy creative tools, hardware, fonts, stock, hosting and education. They arrive focused on their own work and wait on a single, distraction-free screen while it transfers.

Where your brand shows up

The download screen	Seen by every recipient picking up a transfer - calm, focused, and yours alone for that visit.
The home screen	A sponsored card beside the uploader, in front of senders the moment they start a transfer.
Transparent reporting	Every campaign tracks impressions and clicks, so you see exactly what your flight delivered.

Creative & specs

Creative	Your logo, company name and a short tagline. We assemble the sponsored card natively to fit the screen.
Logo	JPG, PNG, WebP or SVG, up to 5 MB. A transparent background works best.
Company name	Up to 120 characters.
Tagline	Up to 200 characters.
Destination	Any HTTPS link. Clicks open in a new tab, tagged rel="sponsored nofollow".
Scheduling	Set start and end dates - your flight runs and ends automatically.
Pricing	Flexible weekly and monthly flights. Tell us your goals and we will quote a placement.
